DETAILED ACTION / ALLOWANCE

Response to Amendment

1. Acknowledgement is made of the amendment submitted by the applicant on 9/2/2003 (with a 3-month extension of time), in which Claims 57 – 59, 61, 65 – 69, 71, and 72 were amended, Claims 63 and 64 were canceled, and Claim 73 was added. Claims 57 – 62 and 65 – 73 are currently pending in U.S. Application Serial No. 09/827,462, and an Office Action on the merits follows.

Drawings

2. The drawings filed on 4/6/2001 (3 sheets, 3 figures) are acceptable subject to correction of the informalities in Figure 3 (i.e., that the various reference characters in Figure 3 are hand-written, thereby making it difficult to discern which reference character is referring to which element in the figure). In order to avoid abandonment of this application, correction is required in reply to the Office Action. The correction will not be held in abeyance.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner,

Art Unit: 1762

applicant will be notified of any required corrective action in the next Office Action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheets must be clearly labeled as "Annotated Marked-up Drawings" and accompany the replacement sheets.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office Action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

Claim Objections

3. The objection to Claim 72, set forth in paragraph 6 of the previous Office Action (i.e., the non-final Office Action mailed on 3/5/2003), is withdrawn in light of the applicant's amendment in which a typographical error was corrected.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. The rejection of Claims 61, 62, 64, 65, 71, and 72 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, set forth in paragraphs 9 – 13 of the previous Office Action, is withdrawn in light of the applicant's amendment and corresponding remarks.

Allowable Subject Matter

6. Claims 57 – 62 and 65 – 73 are allowed.
7. The following is an examiner's statement of reasons for allowance: In allowing the aforementioned claims, the examiner agrees with the applicant's argument set forth on pages 11 – 14 of the **REMARKS** section of the response filed on 9/2/2003. Briefly, the applicant argues that the prior art's general appliance of a homogeneous coating is erroneous in some cases but correct in others, and Leyendecker et al.'s (i.e., the closest prior art of record, USPN 5,272,014) generic finding that an inhomogeneous coating is an improvement over a homogeneous coating is erroneous in some cases and correct in others. The applicant argues that the present invention (as embodied in independent Claim 57), contrary to the prior art, clearly recognizes and claims which cutting tools are coated homogeneously and which cutting tools are coated inhomogeneously for improved behavior. The applicant then argues that it is unobvious to recognize which tools should be coated homogeneously and which tools should be coated inhomogeneously and to coat

Art Unit: 1762

such tools in accordance with this recognition. The examiner agrees with this argument, and therefore independent Claim 57 is allowed. Claims 58 – 62 and 65 – 73 depend from Claim 57 and are therefore also allowed. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
